Summary

I have both bachelor's in software engineering and a master's in computer science and information system. I am a highly motivated person who has been driven to succeed, which I have demonstrated through my IT teaching career. I excel in teaching programming languages and maintenance Hardware (laptop and desktop) and solve the operating systems problems. My previous and current experience in teaching IT filed has developed my leadership and communication skills, ability to cooperate with a diverse team to improve performance. I gain the most satisfaction from taking on challenges, working with great teams, and achieving excellence.

Education

PH.D. student: Computer Engineering

University of Southern Queensland
Springfield, Australia

Master of Science: Computer Science and Information System

University of Technology Malaysia 2011.
Johor, Malaysia

Bachelor of Science: Software Engineering

Al-rafdain University 2006
Baghdad, Iraq

Skills

- Operating systems (windows and Macintosh)
- Window server 2008
- Laboratory maintenance
- MS Office 2007-365
- Share Point
- C++
- C#
- SQL
- MATLAB
- SPSS software
- Visual 3D software

Experience

IT service and desktop support

Ministry of electricity, Iraq / Oct 2006 to Apr 2008

- Maintenance computers (laptop and desktop) and all hardware devices (printers, Fax) and solve the internet problems.

Lecturer at university of Misan and university of Al-sadeq

Faculty of engineering Iraq/ Mar 2011 to Jan 2015

- I was teaching C++ , MATLAB and Algorithms.

Publications & Conference Presentations

- Three journal papers published
- One submitted and under reviewing

Referees
