✓ **References:**

Arrange references as a simple list at the end of your manuscript based on our Endnote style which is downloadable through journals guideline. After downloading the style as a "*.ens " file, copy the "JAMBR.ens" and paste it to C:/program files/Endnote/Styles.

***Vancouver Style.**

1. In text: (1), (1,2), (1-5)
2. Number all references.
3. Arrange your list in the order in which the references appear in your text.
4. If there are more than 6 authors, list the first 6 authors followed by "et al."
5. Use official abbreviations for titles of journals (if available).

***Vancouver style in Endnote**

If you need to change the referencing style in your document drop down the style menu and click on select. Another style an EndNote Styles window opens click the name column heading to sort the list by journal name type. Vancouver. And select the journal style Vancouver from the list presenters.

The reference list should provide the following information as stated in the presented models as follows:
